

Researcher ID A New Way to Address Author Ambiguity

THOMSON REUTERS

We Listen to our Customers!

“.. I would prefer to see something like a **unique identifier for people** (so I can still get all of an author's work even if I don't know his professional history) ..”

“Every author should have a **unique identifier in order to retrieve unequivocally his/her articles.**”

“For certain people to have an identifier so that you can uniquely identify...some people even change names when they get married. Then when you do all this ranking, you lose the first part of their lives .. I think one could also include web page. Email. All the personal details. Yes. Address. Email and web page. **I think that can be quite good. It's like a business card...** “

“.. what is truly needed to more easily narrow author searches is for **all authors to have unique identifiers,..** Thus, rather than searching through all the "J. Lee" entries to find only the papers by the investigator I am searching, one could just enter J. Lee's unique identifier (say, 002678943) and immediately find all the papers by Dr. Lee. **I believe that Thomson Scientific has enough pull at this point to get all the journals to start requiring authors to have unique identifiers in order to facilitate future searches.**”

ResearcherID – The Concept

- A registry that assigns a researcher a unique persistent identification number as well as collects contact information about the researcher.
- A friendly web interface — known as ResearcherID.com — provides a secure environment that allows the researcher to:
 - Register
 - Share their profile and scholarly output
 - Find colleagues around the world for collaboration

What is Researcher ID?

- www.researcherid.com
- Website for creating a unique researcher ID number
- Build a publication list identifying your work
- Make your profile public or private
- Generate citation metrics including:
 - H-index
 - Citation distribution per year
 - Total Times Cited count
 - Average Times Cited

ResearcherID Registration

Access Web of Science database via interaktif library portal & create your ResearchID account

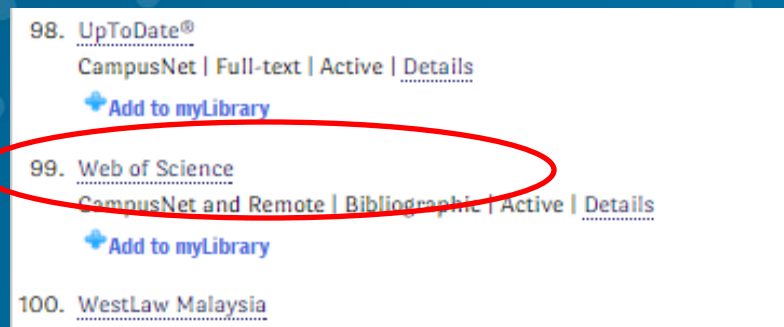

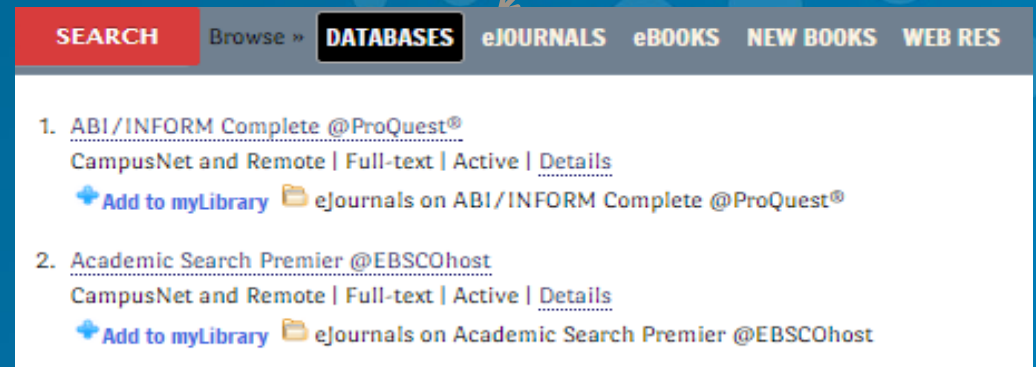

1. Access Library Website :
<http://www.umlib.um.edu.my>
2. Login interaktif Library Portal: with your member/staff card number, start with X
3. Click Databases
4. Scroll down the list and choose Web of Science
5. Click Web of Science

1. <http://www.umlib.um.edu.my>

2. Input X..... number in your member/staff card

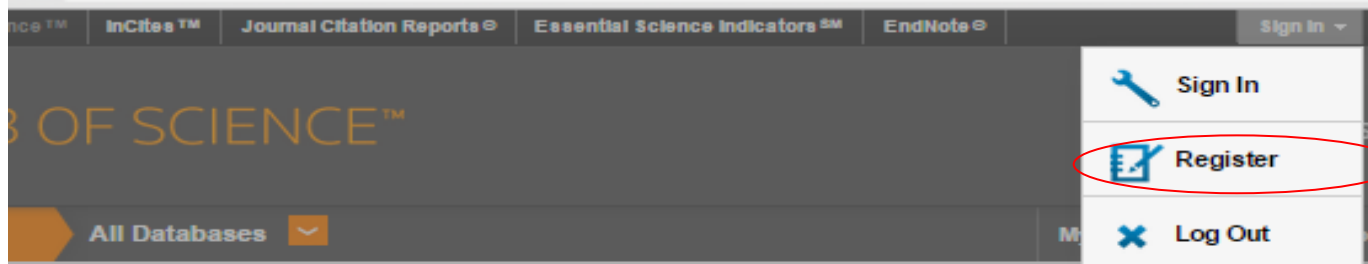

3. Click on Databases

4 & 5. Scroll down the list to Web of Science (arranged in alphabetical order)

6. Click on Sign in & select Register. Input your email & press continue

Registration

E-mail Address: [kohaib7@gmail.com] Retype E-mail Address: [kohaib7@gmail.com] [Continue] | [Cancel]

Note: If you please sign in Why register

7. Complete the registration form & submit.

Registration form with fields for E-mail Address, First Name, Last Name, Middle Initial, Password, Retype New Password, Primary Role, Subject Area, Bibliographic Software Used, Opt In/Opt Out, Automatic Sign In, and Terms and Conditions. Includes a 'Submit Changes' button.

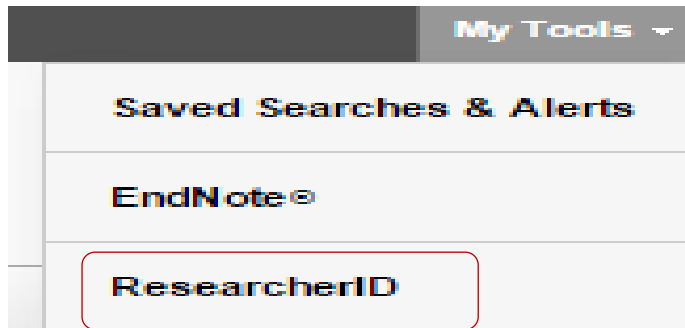

Use the same ID & password to login WoS & EndNote

Registration confirmation message: Thank you for registering, Aiping. You are now signed in to Web of Science. Note: Your "Signed In" status is indicated at the top of every page. To protect your privacy, remember to log out each time you finish your session. Your sign in e-mail address is: kohaib7@gmail.com. [Close]

8. How to Login ?

- a. Web of Science Database
- b. www.researcherid.com

a. From Web of Science database, Click on *My Tools* & select *ResearcherID*.....

b. Login via

<http://www.researcherid.com>

Login

Enter your Researcher ID or your Email address.

Email address:

Researcher ID:

- or -

Password:

[Problems logging In?](#)

After you login, you will be able to update your profile information (registered members only).

Note: *ResearcherID*, *Web of Science™*, and *EndNote™* (all offerings from Thomson Reuters) share login credentials. [More information.](#)

9. Fill in the require fields to confirm your registration

Registration

To register with ResearcherID.com, complete the * required fields below. We will e-mail you a confirmation link.

Hello, Aiping. Please read this important message.

Using your e-mail address, we have detected that you have previously registered with one of the following Thomson Reuters offerings: Web of Science or EndNote, or Thomson Innovation. We have filled in some of the fields below using information you have provided. For your convenience, these products use the same login e-mail and password. After registering, you will be able to login and change your e-mail or password using the Manage Profile option.

First/Given Name: *

Last/Family Name: *

Middle Initials:

E-mail Address: *

Name: Enter your name. This will be displayed on your profile page.

E-mail address: Enter your Email address so ResearcherID.com can contact you. This will be kept private by default.

Institution: *

Sub-organization / Department:

Address Line 1: *

Address Line 2:

City: *

County/State/Province:

Zip/Postal Code:

Country/Territory: *

Institution: Enter the name institution at which you work. Please spell out the name. If your institution has a commonly known acronym or abbreviation, then put both. For example, State University of New York, SUNY. This will be displayed on your profile page by default.

Mailing Address: This information will be private by default. After registering, you can choose to make this information viewable by visitors to your ResearcherID page.

Password: Your password is editable after you register and login. Once logged in, go to the Manage Profile page.

Security Question: *

Security Answer: *

Security Question: Select a question and provide an answer. This will be used to verify your identity in case you forget your password.

Start searching

i. Click Web of Science

ii. Input your search string (Type in your indexed name, choose 'Author' as search option; **IF** all your publications published with UM as affiliation, you may **ADD** 'univ malaya' & choose 'Address' as search option.....)

The screenshot shows the Web of Science search interface. At the top, the 'WEB OF SCIENCE™' logo is on the left, and a circular orange logo is on the right. Below the logo, there is a navigation bar with 'Search' in an orange arrow, 'Web of Science™ Core Collection' with a dropdown arrow, 'My Tools' with a dropdown arrow, and 'Search H'. Below the navigation bar, the text 'Welcome to the new Web of S' is visible. The main search area is titled 'Basic Search' with a dropdown arrow. It contains two search fields. The first field has the text 'hashim r' and a dropdown menu set to 'Author'. The second field has the text 'univ malaya' and a dropdown menu set to 'Address'. Between the two fields, there is a dropdown menu set to 'AND'. To the right of the second field is a blue 'Search' button. Below the search fields, there are links for 'View Abbreviations List', '+ Add Another Field', and 'Reset Form'. A 'Select from Index' link is also visible between the two search fields.

ResearcherID Badge

The create a ResearcherID badge tool allows visitors to your Web page or blog know that you are a member of ResearcherID.com. The data presented on badge roll-over is dependent on the researcher's ResearcherID privacy settings. [More information.](#)

Step 1. Select a Badge Type.

Select the badge image of your choice. If you are this researcher, you may want to choose the larger badge. If you are a colleague of this researcher, you may want to choose the smaller badge.

Roll-over the badges to see how they work.

Step 2. Click on the "Generate Badge Code" button.

Generate Badge Code

Step 3. Copy the code below.

Copy the code to the clipboard by selecting it (click on the code to select it), right-clicking (Mac control-click), and choose Copy.

```
<div id='badgeConf' style='width:124px'><script src='http://edolinuxdev12.isinet.com:8080/mashlets?e=ba
```

Step 4. Paste the code into the HTML for your Web page or Blog.

Open the page you want to embed the badge on and paste the code into the HTML.

Feedback from the ResearcherID Community:

“...ResearcherID is a truly innovative research tool. Especially, I was impressed by "Citation Metrics" function that tracks yearly citations very easily.”

... let me congratulate you for the best site on web, it is very informative and helpful for people who want to look at your contribution to science in a snap shot.

“I found the ResearcherID concept very useful for someone with a very common last name.”

“a key part of the ResearcherID (for now) is the ability to track my own publications and citations to my papers and my H-index etc, in the future I would use this widely to evaluate potential hires and to provide references with publication statistics for colleagues and students. “

In summary...

- Proper attribution and identification in the scholarly works is an increasingly growing issue.
- Thomson Reuters has laid the groundwork for alleviating these issues through Author Finder, Distinct Author Sets, and ResearcherID.
- We are continuing to work with the scholarly community in providing value-add services for ResearcherID.
